

How to avoid shoes that hurt

The wonderful ease of the Red Cross Shoes

Shoe manufacturers everywhere trying to get the effect

This Spring, you won't have to buy shoes that will require weeks of "breaking in." You won't have to risk shoes that may never be comfortable. D. J. Luby & Co. have explained why the Red Cross Shoe has solved this problem for so many women and why you can have your shoes fashionable and yet absolutely comfortable the first time you wear them. First of all, know why shoes hurt. 95 out of every 100 cases can be traced directly to stiff soles. If you could look inside your shoe with your foot in it, you would see why. Your foot bends, but the sole of your shoe bends scarcely at all. At every step you take, the ball of your foot, bearing the entire weight of your body, rubs against this stiff sole. This is what makes hard, callous places, is what causes smarting, burning feet.

Imitations. No patent device, no inner sole of any kind put inside your shoe can remove the cause of your suffering. Cushion soles make the foot perspire; this leaves them tender and sensitive, without bringing relief.

The sole of the Red Cross Shoe is tanned by a special process. This preserves all the natural life and elasticity of the leather. It bends with your foot, follows its every movement, as a glove moves with your hand.

Until you walk in it, you cannot realize how easy and comfortable the Red Cross Shoe really is. Its restful feeling is a delight after the aching and smarting that stiff soles cause.

Women are learning to avoid "make-shifts" and are demanding the genuine Red Cross Shoe.

Especially since in the Red Cross Shoe, we are able to secure such attractive models in such a wide range of styles.

You will find it a very interesting display—all of the new spring styles are on exhibit now.

TOILET SETS.

Something new in chamber sets—besides the regular six piece, a cabinet is included, which makes an eight piece set. There has been a demand for this kind of a set for some time, but, heretofore we only had the six or twelve piece sets. In our stock of toilet ware you will find some exquisite patterns in gold decorations—also lowest prices. Toilet sets, six pieces, white enameled, gold band or figures, at \$2.25 and \$2.50 a set. Toilet sets, eight pieces, gold decorations, at \$3.75 and \$4.25 a set. Toilet sets, twelve pieces, tinted or gold patterns, at \$5.50 a set. Ask to see them.

EDGERTON WON IN AN EXCITING GAME

Milton Was Defeated by the Score of 14 to 11 in a Fast Basket Ball Game Thursday Night. [SPECIAL TO THE GAZETTE.] Milton, March 24.—A good sized crowd witnessed the most exciting game of basket ball Thursday night over played in the new gymnasium. Edgerton's quintet after being played to a standstill for three-quarters of the game forced ahead and won out by a basket and a free throw. They finally took the lead in the last few minutes of play. Milton scored first, but was soon trailing only to regain the lead again. The first half was bitterly contested and time was called with the score 6 to 5 in Milton's favor.

Milton opened the second half strong and soon had the score 9 to 6 in her favor. With the game a tie, 11 to 11, Freeborn had the "wind" knocked out of him for a few moments during which time Edgerton scored her last three points and neither side had any good opportunities to cage the ball thereafter.

The feature of the game was the balling work of the four guards—Borden and Miller for Milton, and Melnick and Wentworth for Edgerton, not one of whom permitted his forward to make a single basket. This is a record never before made on the gym floor in a contest between school teams.

Captain Knudson of Janesville officiated as referee in an efficient and impartial manner. Despite the closeness of the score at all stages of the game and the desperate efforts of every man to bring victory to his school there was no lifeless exhibition and the game was free from unnecessary roughness.

Personal. Dr. E. S. Bailey, of Chicago, visited Milton Friday. W. I. Ingham, of Ft. Wayne, and Dr. A. L. Burdick, of Janesville, and Rev. P. J. Van Horn, of Albion, attended the meeting of the board of Trustees of Milton College Thursday evening.

Declamatory and oratorical high school contests at College chapel tomorrow, Saturday, evening.

Rev. Dr. Randolph goes to Iowa next week to lecture at Milton, Garvin and other points.

SOCIAL EVENTS AT EDGERTON THURSDAY

Bridge Clubs Were Entertained at Carlton Hotel.—Mr. and Mrs. Geo. Ogden Celebrated Wedding Anniversary.

[SPECIAL TO THE GAZETTE.]

Edgerton, March 24.—Mrs. T. A. Clark and Mrs. C. W. Birkenmeier very pleasantly entertained the two bridge clubs in honor of the latter's sister, Mrs. Frank Jack, of River Falls at a one-thirty-six course luncheon at the Carlton hotel Thursday. The decorations both in the dining room and parlor were white and pink and the favors were red and white carnations.

After the luncheon the remainder of the afternoon was pleasantly spent in playing bridge. Mrs. C. Farman captured the high score prize, a beautiful picture, and Mrs. James Conway the lucky number prize, a beautiful pot of white spinners. At six o'clock the guests departed, congratulating both their hostesses and Mrs. Gentry on the success of the happy occasion. The out of town guests were Mrs. Frank Jack of River Falls, Mrs. H. S. McGiffin of Madison and Miss Alma Scofield of Janesville.

A very successful surprise party was carried out on Mr. and Mrs. Geo. Ogden Thursday evening on the occasion of the thirtieth anniversary of their wedding. It was planned by their daughter, Mrs. Fred Smith and Mrs. Andrew McIntosh, sister of the bride. Mr. and Mrs. Ogden were invited to the home of Mr. and Mrs. Moen for supper and on their return home at 8:30 found forty of their neighbors and friends who had come to help them celebrate the happy event. The evening was pleasantly spent in playing euchre and at eleven o'clock a splendid supper was served, furnished by Mesdames Smith and McIntosh, after which Mr. Byron Long made a splendid speech and in behalf of the company assembled presented Mr. and Mrs. Ogden with a beautiful library table as a token of love and esteem from their many friends. At 12 o'clock the guests departed, wishing the bride and groom many happy returns of the occasion.

Personal Mention. Miss Lucile Cullton entertained the Young Ladies Bridge club Thursday evening.

Floyd Cook yesterday moved from the young farm in the town of Porter to the Joe Kenyon farm in Albion township, having rented the same for the coming year.

Miss Olga Hanson returned from Chicago last night where she spent several days purchasing goods for the department store.

Joe Churchill, the Indian Ford blacksmith has rented a farm in the town of Janesville and moved there with his family this week. The Ford people are sorry to depart with the family from their community.

Hotel Arrivals. Registered at the Carlton hotel are the following: Dr. Lindstrom, Janesville; A. Norman, Stoughton; Theo. Convey, Ridgeway; W. T. Jefferson, Huron; G. W. Draker, Lake Mills; A. M. Lockard, Jr.; F. Ellsworth, E. J. Colman, C. H. Dunlap, Madison; Fredrick Roth, H. V. Hunter, Wm. A. Britting, P. W. Ruemer, E. S. Teal, Jack Barry, H. E. Federly, W. S. Sloan, H. Tine, Milwaukee; W. F. Briggs, Rockford; J. W. Rockwell, Mukon City, Iowa; J. D. Crawford, Menominee, Mich.; L. L. Ferris, Jr., Waterloo, Iowa; C. Bodley, St. Paul; H. C. House, Grand Rapids, Mich.; Wm. C. Wing, H. J. Brodenick, O. C. Baker, G. M. Jones, A. R. Kanbury, H. H. Harrington, A. J. Bell, T. McClure, Chicago.

REMAINS OF RUSSEL O. MEAD WERE BURIED TODAY

Body of Man Who Died at County Hospital Was Laid at Rest in County Cemetery This Afternoon.

The remains of the late Russell O. Mead who died at the county hospital

and for whose body his relatives refused to provide, were laid at rest in the county cemetery at the poor farm this afternoon, shortly after two o'clock. No word was received from his family in Rockland since their answer to the first message.

ENTERTAINED CLASSMATES AT HER HOME YESTERDAY

Miss Gladys Snyder Was Hostess To Friends of the Grammar Room.—Other News From Clinton.

[SPECIAL TO THE GAZETTE.] Clinton, March 25.—Miss Gladys Snyder entertained her class mates of the grammar room at the beautiful country home of her parents on West Milwaukee road last night. The young folks met at the home of Leonard Hamilton and Mr. Snyder took them out in a hay rack, which was great sport. A very fine time was reported by all.

Personal Mention. Attorney E. B. Hawks has sold the home of C. B. Kline just west of the Northwestern railroad to W. J. Evans who will take possession April 1st.

The social meeting of the Men's class of Congregational Sunday school are growing in interest and enthusiasm; at the meeting Thursday evening with V. C. Tuttle. Two members gave interesting accounts of the ancient city of Carthage, followed by general discussion, dainty refreshments were served by the hostess.

Miss Grace Holmer of the state university, is home for the spring vacation.

Mrs. Robert Kelley of Beloit, is visiting her parents, Mr. and Mrs. George Graves, corner of Cross and Pleasant streets.

C. P. Drake is papering and putting in shape the front room in his block adjoining the Y. M. C. A. reading room for a consultation room for Doctor W. O. Thomas, which when completed and furnished will give the doctors a magnificent suit of rooms.

George Kinyon, who has been spending several months in Texas, is expected home next week. It seems to be the general verdict that Southern Wisconsin has the world beaten for an all round ideal place to live, twelve months of the year.

Miss Myrtle Paughorne is spending her vacation from teaching at home.

Miss Estelle Cooper of Effort college is sending the school vacation at home.

Mr. and Mrs. Lewis Bessess of near Allen Grove, celebrated their silver wedding Thursday night. Host, Elmer and family, north of town, were among the guests and reported a very fine time.

Doctor A. S. Parker made a professional trip to Chicago Wednesday.

Mrs. R. B. Snyder has been very ill and Mrs. W. H. Northrop has been helping care for her.

Doctor A. I. Schmidt of Beloit, was in town on a professional trip yesterday.

Christ, John Kline is very low at the home of his sister and but little hopes are entertained for his recovery.

The Difference. 'Ah done foun' dat de main diffunce 'twix chilluns an' grown-ups an' dat each has got de notion dat de oddch has de bes' time.—American Spectator.

PHYSICAL DIRECTOR OF Y HAS RESIGNED

Perry J. Stephens Will Leave Local Association to Engage in Farm Work on April 1.

Perry J. Stephens, physical director at the Young Men's Christian association building, has resigned his position to take effect the first of April. The resignation was turned over to the board of directors and acted upon by them some two months ago, but the first announcement that he was to leave was made today. Mr. Stephens took up the work in this city, coming here from the Galesburg, Ill., association, last September. He has many friends in this city who regret his departure from the association. He is an all round athlete and well prepared for the labor in which he has engaged.

It is understood that Mr. Stephens will give up physical culture work temporarily, at least, to engage in agricultural pursuits. He has rented the J. A. Schinner farm north of the city and will work it for the coming season.

Sterling Campbell of this city will fill the place until the fall, it is expected, as the board of directors have made arrangements with him to act as director temporarily. He is well equipped for the work, having taken part in the activities at the association for the past eleven years. As an athlete and gymnast he won first honors at the state meet held in Kenosha two years ago, competing against athletes from Milwaukee and other large cities. During the past winter he has conducted two classes weekly in boy's gymnastics work at Clinton. Campbell intends to make this his life work and next fall will probably seek a position in another city.

WEATHER CHANGES CAUSED BY THE SUN

Dr. C. C. Abbot Believes Variance in Solar Radiation Effects Our Temperature and Climate

If the investigation which Dr. C. C. Abbot of the Smithsonian institute has been making for the past five or six years, results as he expects it will, a discovery to the effect that the variation of the sun varies, and this variation causes a corresponding change in the temperature of the earth. This will be one of the greatest discoveries of the century and will be of great benefit in its application to agriculture and in the compiling of long distance weather forecasts.

Congress has recently made an appropriation of \$5,000 in order that Dr. Abbot can make a careful investigation and to accomplish this he has established three observing stations, one at Washington at the sea level, another at Mount Whitney, at three mile elevation, another at Mount Wilson, one mile, and it has been found necessary to place a station in Mexico where it will be entirely cloudless.

It has been necessary to make the instruments to measure the radiation of the sun and now these most accurate and accurate pieces of machinery are

flushed and will facilitate the work to a great degree. It is the plan to take the measurements at stations which are far apart and in this way it will be determined whether or not these variations are in the sun or are something which we have not eliminated in the atmosphere.

CLOSING NUMBER OF LECTURE COURSE

At Edgerton Was Given By the Glee, Mandolin and Banjo Clubs of the University of Wisconsin.

[SPECIAL TO THE GAZETTE.] Edgerton, March 25.—Friday evening was the closing number of the Edgerton lecture course and Royal hall wherein the entertainment was held, was packed to the doors. The Glee, Mandolin and Banjo clubs of the University of Wisconsin, was the attraction and the entertainment they rendered was a credit to that organization and the Federation of Women's clubs under whose auspices the lecture course was given. The program rendered was a pleasing one and consisted of sixteen numbers.

Local News. Carl Matheson, of Morrisville, Wis., a former resident of this vicinity, is here on a visit to relatives and old time friends. Mr. Matheson owns and conducts a farm at that place and for the past four years he has been located there he has done exceedingly well. He is meeting with a hearty welcome among all his friends.

Mark Hahn, the pastor recently purchased from Mayor J. M. Conway, by C. L. Cullton, William Melnick and O. J. Jensen, was shipped this week to the Graton stock farm at Libertyville, Ill., where he will be developed and put in proper shape. He is seven years old and thus far has scored big records.

H. C. Willson went to Chicago this morning for a few days on business. There will be services at the M. E. church Sunday morning and evening at the usual hours. In the absence of the pastor Dr. Plantz, president of the Lawrence college of Appleton, will occupy the pulpit both morning and evening. Rev. H. L. Leavitt at 6:15. Prayer meeting Thursday evening at the residence of Andrew Humphrey.

Services at the Congregational church Sunday morning and evening. Pastor Roberts' subject in the morning will be "The Rebound of Virtue and Vice". In the evening, "A Personally Conducted Journey".

Mrs. George H. Tausley of Beloit, came Friday evening for a visit with Mrs. Leonard Hudson and other members of the family.

Hotel Arrivals. Guests registered at the Carlton hotel are: H. P. Devine, Albion; H. A. Hulse, Stoughton; J. C. Shannor, Oregon; Fred N. Smith, Whitewater; H. J. Knelling, L. J. Johnson, Ben G. Colvin, Geo. T. Arkerman, E. J. Colman, J. W. Winttingham, Z. M. Speer, Leonard S. Smith, Madison; H. C. Hoffman, W. H. Elkey, Milwaukee; H. M. Morvino, Moline, Ill.; Ernest Gaeh, G. Beckman, Chicago.

Glass Bricks Replace Windows. Glass bricks inserted in the wall now take the place of windows.

TRUTHFUL STATEMENTS About The NEWMAN BROS. PIANO

STYLE 20.

A party came into my piano rooms this week from Whitewater who had bought a Newman Bros. piano Style 9 one year ago. He made this statement to me: "I would not take \$500.00 for my Newman Bros. piano Style 9." I asked him why. "Oh," he said, "on account of its beautiful tone." Another party, a lady, said, after seeing and studying the art Style 9 case, "It's the most beautiful case I have ever seen." Still another lady said to me after using her Newman Bros. piano ten years, if she ever bought another piano it would be a Newman Bros. piano. Another from a party who is a piano tuner said: "My Newman Bros. piano I purchased from you 6 years ago has proven satisfactory in every detail and a delight in the home. It's volume, quality and evenness of tone is marvelous. The tones in the highest octave have a clearness seldom found in other makes. I feel that I am in a position to say that the Newman Bros. piano has few equals, all points considered."

These are all truthful statements coming direct to me without any exaggeration. Truth is enough—let it alone.

Now then, in order to advertise the famous Newman Bros. piano more freely in Janesville and vicinity, the Newman Bros. Co. request me to make greatly reduced prices to a club of 25 members and to the party who secures the largest number to purchase pianos in the club in the next three months, secures one high grade Newman Bros. piano, No. 20, absolutely free.

Great Price Reductions on Pianos to Club Members. Save from \$75.00 to \$100.00.

Churches, lodges, schools, societies, should get together and secure the free piano for their rooms.

Newman Bros. pianos are sent out on a 15-year guarantee.

The simple fact is this, do you wish to join the Newman Bros. piano club and secure the price reductions? If so, come at once; our low prices are only for a stated length of time. If you wish the free piano bring in your friends and have them secure a piano at club prices and save \$75 to \$100, and get the best piano in the city.

You may look where you will, but don't buy until you have seen my pianos and secured my prices.

Send me your name and address, or sign coupon below and I will send you free one music book of old familiar songs, 24 in number.

I HAVE NO PIANO AND WOULD LIKE TO KNOW MORE ABOUT THE NEWMAN BROS. PIANO CLUB.

THERMIT WELD MADE AT THE SHOPS TODAY

Apparatus Was Ready for Welding the Frame of Engine 300 This Morning.

Some six or seven men were engaged at the South Janesville shops this morning making everything in readiness for the casting of the first thermit weld with the new apparatus which has recently been installed.

Foreman W. W. Hoffman was overseeing the job; Albert Blum, blacksmith, and his helper, C. Vebant, had charge of the mould, the arranging of the fire clay, plugs and so forth; George Road, carpenter, has charge of the structure to hold the crucible in place; and Earl Garbutt, machinist, and J. Smith, machinist's apprentice, were at the gasoline machine.

The mixture was in readiness to be fired by nine o'clock this morning and it was only necessary to wait for the hardening of the clay with the torch. The mixture in the crucible was as follows: Two and one-half pounds of magnesium, 80 pounds of thermit, 1 pound of magnesium powder, and 15 pounds of iron punchings. The top of the crucible was covered with an asbestos plate in which a two-inch hole was cut, through which a red hot iron rod was thrust to ignite the crucible. When the metal is ready to be poured into the mold all that is necessary is to melt a small wire which is attached to a tumbler at the bottom of the crucible, and this opens a valve, allowing the metal to run out. The entire process consumed most of the day, and the workmen were confident of their success.

BRODHEAD.
Brodhead, March 24.—A telegram from Chicago on Thursday disclosed the fact that Mrs. W. A. Derrick was critically ill. Her son, F. R. Derrick, went on the first train to that city to be with her.

Mrs. John Ten Eyck returned Wednesday evening from an extended visit with her daughter, Mrs. Nettie Bishop, and family at Terre Haute, Indiana.

Mrs. Jack Murphy and daughter, Zelma, and Mrs. Frank Calart and niece, Genevieve Miller, of Platteville, are guests of Mr. and Mrs. A. E. Stephens.

Mr. and Mrs. John H. Henry went on Thursday to spend a short while in Beloit and Avon. At the latter place they will visit their son, Wilbur, and family.

Mrs. John Buseto and Miss Minnie Buseloff spent Thursday in Janesville.

Miss Irene Tathrop, of Oregon, Wis. is spending the week with her mother, Mrs. C. A. Tathrop and other Brodhead relatives.

Mrs. Henry Johnson of Beloit is the guest of her parents, Mr. and Mrs. Richard Robinson.

Born to Mr. and Mrs. Elmer Evans on Tuesday, March 21, 1911, a daughter.

W. S. Panley was in Janesville Thursday with Mrs. Panley at the hospital.

HOG'S CORNERS.
Hog's Corners, March 25.—Miss Irma Husker has gone to Superior to finish her year's work in the high school there.

Mrs. August Lipke and daughters, Emma and Eleanor, visited at Frank Albrecht's last Tuesday.

The box social held at Fred Rump's Thursday evening was quite well attended.

Mr. and Mrs. J. Crowley and A. H. Hoyer were Sunday callers at A. H. Hoyer's.

Mrs. Byron Coon visited at A. H. Hoyer's Tuesday.

Thomas and Phil Costigan of Janesville and Beloit, respectively, spent Sunday with their mother and sister here.

Mrs. Wm. Brown visited her parents, Mr. and Mrs. Gus Wilcox last Sunday afternoon.

Mr. and Mrs. Aug. Lipke and family visited at Bert Wood's Sunday evening.

Mrs. A. Houg visited Mrs. Guernsey Wednesday afternoon.

Mr. and Mrs. Lewis Martin were Wednesday visitors at Bert Wood's.

FUNERALS OF FORMER BRODHEAD RESIDENTS

Remains of Jay Adams Will Be Brought for Burial Tomorrow—Mrs. M. A. Derrick Dead at Chicago.

[SPECIAL TO THE GAZETTE.]
Brodhead, March 25.—The remains of Jay Adams, who died in Rockford on Thursday, will be brought here for burial on Sunday noon. The local M. W. A. lodge will be in charge and the funeral cortege will go direct from the depot to the cemetery, Pearl Lodge No. 81, Knights of Pythias, will also attend in a body.

Mrs. M. A. Derrick. Word was received here this morning of the death of Mrs. M. A. Derrick which occurred in Chicago, Friday forenoon. The remains will be brought to Brodhead for burial, the funeral being held in the Methodist church where she was a member for many years, conducted by Rev. G. N. Foster.

Personal.
Albert Knudson was a visitor in Orfordville on Friday.

Mrs. Edward Amerpohl of Janesville was the guest of Brodhead friends on Thursday night.

Frank Randall was a passenger to Milwaukee on Friday.

Ed. Boyles had the misfortune to smash one of his fingers quite badly with a hammer.

John Mooney was in Janesville on Friday.

C. W. Fleck of Janesville spent a part of Friday here on business.

Mrs. B. H. Roderick was here from Juda on Friday.

David Roderick was down from Monroe on Friday.

Mrs. Florence Richter and baby, who have been here from Milwaukee, the guests of friends, returned to their home on Friday.

Mrs. E. K. Berg is reported as very sick.

Mrs. Thomas Stewart of Yankton, South Dakota and Mrs. Kelly of Orfordville were guests of Mr. and Mrs. W. D. Ames on Thursday.

Mrs. Ira Smith returned to his home in Albany, Illinois, Friday, after visiting with her parents, Mr. and Mrs. W. Peppers. Her sister, Josie Peppers, returned with her, to remain a short time.

Polltiness.
The Hostess—What! do you have to leave at this early hour? The Guest—I'm sorry, but it's necessary. The Hostess—And must you take your wife with you? The Guest—Yes, ma'am—I'm sorry to say I must.—Cleveland Leader.

MISS VERA NOLAN HOSTESS AT A WEEK'S END PARTY

Miss Vera Nolan is the hostess to three of her young lady friends from Milwaukee Dancer college at a house party at her home, over Sunday.

Those who are present are, Misses Helen Christensen, Manatee, Mich., Viola Wood, St. Paul, Minn., and Gen. Hanson, Chippewa Falls.

Found to Be Better Than Glue.

A composition of wax and pitch is now being used instead of glue in the making of organs for tropical countries, where the damp climate causes glue to peel off.

From Bad to Worse.

Hobbs—Why don't you consult a doctor about your insomnia? Globbs—What! And run up more bills? Why, it's because of what I owe him now that I can't sleep.—Tribune.

Two of a Kind.

"Can you picture anything to equal a little exile in Siberia?" asks a writer discussing the Russian penal system. How about an egg in cold storage?

The Bungalow.

The word bungalow is an Anglo-Indian version of the Hindoo bangle, which primarily means Bengali, or Bengal, and is also applied to a thatched hut.

Monarch Composition Roofing Made Scientifically It's the Best for Your Use

Before putting a Roof on your House, Barn or any other building, thoroughly investigate Monarch Composition Roofing. Compare it with the best roofing you now know of and you'll readily learn that Monarch is far superior.

Note the thoroughness of the saturation which makes the felt inseparable. The felt used in Monarch is positively guaranteed all wool and the saturating compound the best known to science.

You will find many inferior imitations of Monarch on the market. These kinds are made of a paper felt saturated with cheap oil compounds and coated with petroleum pitch. These roofings are made to sell.

Monarch Roofing is made to give complete roof satisfaction. It will outlast any other roofing on the market. It is Quality Roofing. We've sold it for years and always it has given the most satisfactory service.

If you would know more about this Monarch Roofing talk with any one who has used it. Or we'd be glad to tell you more about it and thoroughly demonstrate its many advantageous points when you call.

H. L. McNAMARA

If it is good hardware McNamara has it.

An Appreciation From Walter Damrosch

Conductor New York Symphony Orchestra, Lecturer, Composer, On the

Mason & Hamlin Piano

MASON & HAMLIN CO.

Gentlemen:--

The remarkable growth in appreciation of your pianos by the artistic world during the past ten or twelve years, together with an increasing knowledge of your instruments gained through hearing them played by many great pianists at the concerts of the New York Symphony Orchestra, and also through personal use of them at my home and in my lecture recitals, prompts me to congratulate you upon their wonderful tone qualities.

The even beauty of the entire scale, ranging from the finest pianissimo to the greatest fortissimo, enables me to translate the orchestral score, which I interpret in my lecture recitals, with a close appreciation of the composer's requirements. Your great invention, the Mason & Hamlin Tension Resonator, without a doubt gives to your instruments a quality of tone of extraordinary singing capacity and of great sonority.

(Signed) WALTER DAMROSCH

NOTE—The MASON & HAMLIN PIANO, the Best in the World, May Be Had in Janesville Only At This Store

OUTLINE COURSE OF INSTRUCTION

WHAT NEW TEACHERS' TRAINING SCHOOL WILL GIVE IN LINE OF PREPARATION FOR TEACHING.

WORK IS VERY COMPLETE

Good Training for Teaching is Provided by the Course of Study That is Now Arranged For.

There has been so much interest displayed in the proposed training school for teachers which has been decided upon by the county board that the following outline of the course of study to be taught at the school will be read with interest by all interested in the organization of such a training school. As Janesville is one of the applicants for the location of the school it is particularly interesting to local readers. The following article was written for the Gazette by Frank J. Lowth of Evansville, the new head of the school.

There is such a general lack of information among the people as to the purpose and the character of the new training school that it seems necessary to take some space in presenting a few facts.

There were no county training schools in Wisconsin prior to 1899. The legislature that winter authorized the establishment of two such schools, and these soon proved to be the means of supplying a long felt want, viz., furnishing trained teachers for rural schools. Before the advent of the county training school the county teachers had been largely recruited from the ranks of the common or high school graduates. These people were and are today almost wholly unprepared to discharge successfully the functions of a good teacher.

The eight normal schools of the state do not usually send teachers to the rural communities. The product of these schools goes to the cities and the towns. Thus the training school is needed.

It has a special mission: to prepare rural school teachers. There are now twenty-six such schools in Wisconsin, and this legislature will undoubtedly provide for four more.

This new school is to provide training for teachers for our own county—Rock. The state superintendent passes upon the qualifications of the instructors in the school course of study, the work done, and has general oversight of some other details. Our county gets the benefits and the state is back of us. The state pays two-thirds of the cost of maintenance, providing this share does not exceed \$2,500.00 per year. The county pays one-third of the running expenses.

There are two courses of study, one and two years in length, respectively. The two year course is for those who have the minimum of preparation, the one year course for those who can do the work in one year, because of maturity and previous training.

We print below a type course. The different courses will not vary greatly from this. Note that the full course is two years in length. The one year course is in the case, the second year of the two-year course. Music, penmanship, spelling, construction work, and library work are required in near-by every school. Theoretical work, practice in parliamentary usage are quite commonly found.

Courses of Study.
First Year:
First Quarter: Mental Arithmetic, Geography, Grammar, Composition, Reading, and Orthography.
Second Quarter: Algebra, Word Analysis, Composition, Grammar, Expressive Reading.
Third Quarter: Algebra, English, History, Elementary Physics, Literary Reading.
Fourth Quarter: Elementary Physics, English History, School Management, Literary Reading, Algebra.

Second Year.
Of the two-year course, or the one-year course for those prepared to take it.

First Quarter: Arithmetic, Drawing, Reading and Orthography, Physical Geography, Pedagogy.
Second Quarter: Arithmetic, U. S. History, Literature, Physical Geography, Pedagogy methods.
Third Quarter: U. S. History, Grammar, Composition, Literature, Physiology, Method—Manual.
Fourth Quarter: Grammar, Composition, Constitutions, Agriculture, Practice Teaching.

One writer suggests that the greatly increasing demand for county training schools is due to the following facts:

1. The expense to the county is not large.
2. The schools always become permanent.
3. The subjects of the course are the special ones that the teacher needs.

4. The students come into contact with mature instructors and rapid development is possible and noticeable.
5. The practical work eliminates the element of subsequent failure.

6. The cost of the training in the home county is less to the student.
7. Persons who are weak in some branches and those who are mature in years and thought, but have been out of school for some time, find the training school especially adapted to their needs.

The training school is here to stay. The people soon see the real value of such a school. It is not an experiment. It is an established fact in the excellent influence which it is exerting.

The school year is of ten months duration and is divided into four quarters of ten weeks each. The Rock County School will open for work on Monday, Aug. 28, 1911. It is not expected that any of these schools will be large. An attendance of forty students would be about all we could accommodate with a teacher, force consisting of the principal and one assistant the first year. We are hoping for not less than thirty, nor more than forty. We aim at quality of work accomplished.

No student under sixteen years of age will be admitted and the following are eligible to admission without examination.

1. Those holding a teacher's certificate.
2. High school graduates.
3. Students who have had two years of high school work.
Common and graded school gradu-

ates will be given an entrance examination. If these people are sufficiently mature and have been well trained they will have little difficulty in passing this examination. Tuition is free to residents of Rock County. All necessary text and reference books are to be furnished by the school at a rental of seventy-five cents per quarter, or three dollars per year.
Value of A Training School Diploma.
This working is taken from various training school circulars.
1. A person may teach for three years from the time it is issued, if the first year's teaching is satisfactory.
2. If you are a successful teacher you will be given one year's credit in a state normal school at time of entrance.
3. If you are a high school graduate of a four year course before graduating from the training school, you will be given one-half year's credit in the advanced course of a state normal school at time of entrance.
4. The practice given by being a training school graduate will secure for you a better school and a better salary than you could otherwise get.
5. Your work is made easier and more pleasant while teaching, and you have a conviction that you are prepared, and not experimenting upon pupils.
6. Training school standing can be placed upon teachers' certificates by the county superintendent any time within three years.
7. Students have higher ideals of living; social relations are broadened.
8. Recognition from the educators of this state and from other states.
9. The graduate has all the professional training now required by law in Wisconsin or which is likely to be required of teachers in the near future.
10. Training school diplomas are accepted in any county of the state.

Read over these advantages carefully, and read the whole article again. It may be to your interest to do so.
The Rock County Training School board consists of C. E. Moore, President, Evansville, W. E. D. Supt. O. D. Antisdel, Janesville, Secretary; Charles A. Cleveland, Beloit, Treasurer. For information concerning this training school write to either Supt. O. D. Antisdel, Janesville, or to the undersigned.

FRANK J. LOWTH,
Principal of the Rock County Training School.
Evansville, Wis., March 22, 1911.

Rock County Summer School.
The summer six-week session of the training school will open for work on Monday, June 26th, 1911 and will close on Friday, Aug. 4th. The principal of the training school will act as the principal of the summer school, and he will be assisted by a faculty of competent instructors. The sessions will be held in the Janesville high school building, the assembly room and the recitation rooms to be used as needed. This will afford the facilities for work. An observation and practice school will be run in connection with the other work, and this will be in charge of a trained and experienced supervisor. No tuition will be charged the students from Rock County. Special attention will be given to the needs of those inexperienced prospective teachers who are working for a third grade certificate. Others will be given opportunity to pursue second grade and first grade branches. A circular of the summer session and also of the regular session of the training school will be issued in April. If you desire copies of these circulars write to either Supt. O. D. Antisdel, Janesville, or to the principal.

Heart to Heart Talks.
By EDWIN A. NYE

THE HIGHER LAW.
The old adage says—
"Self preservation is the first law of nature."
But that is untrue.

A howling blizzard swept the prairies of the northwest the other day. It was the sort that makes you lose your way and travel in circles, perhaps in sight of your home.

Two Yankton Indian women, each with a baby on her back, were caught in the storm far from any human habitation.

What did they do?
They took off the blankets that kept them from freezing, wrapped the papooses snugly inside them, crooned the babies to sleep, and then—
Lay themselves down and deliberately froze to death.

The babies were found, alive and well.
No. The so-called law of self preservation is not the first law of nature. There is a higher law, and it reigns even in the savage breast.

It is the law of love.
In Chicago recently a business man saw a little child toddle in front of an engine. It was not his child. He saw and knew that if he saved the child he must give up his own life.

He did not hesitate.
He leaped after the child and flung it to one side of the track. The engine passed over him and mangled his body into a shapeless mass.

Do you want more such stories of the heroic sort where men and women obey the higher law?
Read the daily newspapers.

Self preservation is only one of the laws of nature. Men and women love their lives, but under the pressure of the higher law will—instinctly or deliberately, as the case may be—fling their lives away.

Man is more than animal.
He is the offspring of God.
And he partakes of the divine nature. He betrays his kinship.

As the divine nature is of the essence of love, so man, put to the supreme test of a choice between self and love, chooses to be like God.

Just say: "I saw it advertised in The Gazette" and the merchant will show exactly what you want.

Lamb—\$5.

OBITUARY.

George Robert Carle.
George Robert Carle died at the home of his parents, Mr. and Mrs. Geo. F. Carle, 1026 Dearborn avenue, Chicago, Ill., March 22, at 2 o'clock p. m. Master Carle was born in this city August 13, 1905, and spent his years of happy childhood here, attending the Adams school until the family moved to Chicago last November. A sweet, lovable child, he was friend and companion to all with whom he came in contact. Aside from his own home which is so sadly afflicted he will be especially missed in the homes of both grandparents where he was accustomed to spend much of his time. The funeral was held yesterday afternoon in this city from the home of his grandparents, Mr. and

Mrs. Robert Rowley, Rev. Joseph C. Hazen officiating. A beautiful song service was rendered by Mrs. George Parla and Miss Cora Anderson. The pallbearers were Mustafa Frankie Koehler, Fay Merrick, Rush Berg and Raymond Turnbull, who were little friends of the deceased. The remains were tenderly laid to rest in Oak Hill cemetery.

Alice Angle.
After an illness of over a year Miss Alice Angle passed away at her mother's home, shortly after twelve o'clock last night. She has been a patient sufferer for more than a year and death came from a complication of diseases, to relieve her of her pain, but leaves sorrow and loneliness in the hearts of those to whom she was nearest and dearest. The deceased was eighteen years of age and her loving disposition endeared her to a host of friends. Through her long illness she had been as cheerful as possible and tried to lighten the burden for the dear ones. The blighting of this young life at so early an age is hard for the mother especially, and many friends extend sincerest sympathy.

After the death the remains were

taken to the home of her uncle, J. T. Connors, 304 North First street. The funeral will be held from St. Patrick's church at nine o'clock Monday morning. Besides the mother, Mrs. Ellen Angle, seven uncles: Edward Angle, and E. H. Jans, Joseph, Isaac, and John Connors, and an aunt, Mrs. Mary Harron.

A Poor Job.
"Yes, sir," said the great financier, proudly, as he flicked the ash from his 18-penny cigar, "I am the architect of my own fortune." "Well," rejoined the friendly critic, "all I've got to say is that it's a lucky thing for you there were no building inspectors around when you were constructing it."—Exchange.

Keep an Interest in Life.
Do not live alone, but ask the indulgence of your married friends who have children. By this means you will retain an interest in life things and not sharpen your own opinions to too fine a point.

plenty of comedy and is one of the new plays that delight everybody. The Dudley Stock Company while a new one to the theatre goers of Jameville is said to be the strongest acting stock company travelling. Specialties will be introduced between acts and there will be an entire change of program each night.

Comedy of Happiness.

The 10th performance of "Pomander Walk" has been celebrated at Watlachs, where the Louis N. Parker comedy has established itself for the entire season. A cablegram signed by the company congratulated the author, thanking him for having pro-

Wrong Kind of Bones.
The proprietor of a little restaurant in Forty-fifth street, New York city, ran short of soup bones and telephoned to the butcher's. "I want some bones," he said. "Send me around quick a lot of the best you have. I want them for making soup." "Who do you think this is?" came over the wire. "Why, ain't you Blinks, the butcher?" asked the restaurateur. "No, this is Blinks, the undertaker, in Sixth avenue," was the response.

Happy Inspiration.
On a recent examination paper in civics was this question, "If the president, vice-president and all the members of the cabinet should die, who would officiate?" Robert, a boy of twelve, thought for some time, trying in vain to recall who came next in succession. At last a happy inspiration came to him and he answered, "The undertaker."

Carnegie Observatory.
The Carnegie observatory on Mount Wilson, in California, is of white canvas, like some huge ark. You look for telescopes inside, but in vain; a series of mirrors appear instead, and it is the third of these that does the magnifying instead of the usual telescope tube. Visitors are accommodated in dilatoria, a little house being apportioned to each chalet. Observations have been carried on since April, 1904, and every day a phototelligram is taken and several other pictures, by no means of the spectro-heliogram.

Advantage of Concrete.
Homes in a well-built concrete house are cooler in summer and warmer in winter than those of a brick house as concrete walls are more equable in temperature, owing to being non-absorbent and not so readily chilled as brickwork.

Potentialities.
At a Rigi hotel the following notice is posted up—"In this hotel the wine leaves the traveler nothing to hope for."

Prisoners Do Valuable Work.
In England, at Dartmoor, the prisoners have been engaged in reclaiming the moorland, working even in winter. Agricultural prisoners have been established in England, New South Wales, Prussia, Austria, Hungary, Switzerland, France, Russia and Belgium.

As Seen Hereafter.
This earthly life when seen hereafter from heaven, will seem like an hour passed long ago, and dimly remembered; that long, laborious full of joys and sorrows as it is, it will have dwindled down to a mere point, hardly visible to the long-reaching ken of the disembodied spirit.—Longfellow.

Question of Cooking.
Among the questions put on one occasion by the teacher of a Sunday school class in Trenton, N. J., was this: "Why did Elijah put water on the sacrifices?" After some hesitation an answer was forthcoming from a little girl in front, who said: "To make the gravy, ma'am."

All Snakes Are Killers.
But all snakes, great and small, are killers. All of them eat creatures which they slay. None eat vegetable food of any kind. Nor will they eat animals which they find dead. That is one reason, no doubt, why they have always been shunned and dreaded by human beings.

GARMENT STORE

The Measure of Anything is Its True Commercial Value and Its Completeness.

You should remember that there is—or ought to be—something in a young man's or woman's training besides "book-learning."

When choosing a school:—

You should know the value of the institution as measured by the business man when seeking competent office assistants.

Your opportunity for securing employment after graduating, and receiving full measure in salary for the services rendered.

The time required to complete a course of training as measured by its practicability and completeness.

That is best measured by results obtained by those who have graduated from this institution, and the increasing demand for our graduates.

Prosperity is not measured by the amount in the pocket-book, but by the figures in the bank book, and we can honestly state that our courses have been the means of bringing immeasurable opportunities to our graduates.

W. W. DALE, President.

But even that is not all. Knowledge costs money and any person's capacity is measured by his ability to "DO THINGS," therefore you should realize that a practical course of training should be purchased but once. The teacher's capacity should not only be measured by his knowledge but also by his ability to impart that knowledge to others. Hence you can readily see that the quantity and quality of our courses of practical instruction is immeasurable.

WOMAN'S PAGE

To Our Women Readers.

WITH LESS than a week for the letters on suggestions for the making of the Gazette more interesting to its woman readers remaining, every mail is bringing in numerous ideas from the women readers of the Gazette that demonstrates the popularity of this contest. For the most part they are on subjects of vital interest to every woman, while some even offer ideas as to the general appearance of the Gazette itself.

The contest closes this week and all letters that are entered must be sent addressed "Feature Editor," care of the Gazette, to reach the office on Friday. Each article must be plainly written on one side of the paper only and confined to about one hundred words. If mailed they should have a two-cent stamp on the envelope.

Remember the prizes offered for the best four articles on this subject.

FIRST PRIZE—CALORIC FIRELESS COOKSTOVE.
SECOND PRIZE—\$50.00 IN MONEY.
THIRD PRIZE—\$30.00 IN MONEY.
FOURTH PRIZE—\$20.00 IN MONEY.

The names of the winners will be announced on Saturday, April 8th, and the awards will be made immediately. Owing to the number of answers to the request for suggestions it will take some days to decide which are the best and most deserving of the prizes. The interest taken in this contest has been remarkable and letters continue to come in by every mail.

The Gazette will have another contest for its women readers which will be announced in one of the issues of the Gazette during the coming week. It promises to be even a more interesting one than the present contest and will offer ample opportunity for the housewife to test her skill in a manner which will be appreciated by the entire family.

The Evening Chit-Chat

By RUTH CAMERON.

WHEN a wealthy old woman, in a town near Boston, who had lived alone for many years, died the other day, and her house was overhauled by the estate, it was found to be literally crammed with all sorts of extraordinary trinkets which this woman had picked up at bargain sales during the last twenty years.

There were bird cages and men's shirts and quantities of cheap handkerchiefs and hundreds of bottles of cologne and half a dozen baby carriages, bric-a-brac, an infantum, bushels of cheap jewelry and toilet articles, and bolts of dress goods.

In fact, almost any article you could name was found somewhere in that house.

The old servant, who lived with her, said that bargain hunting was her mistress' chief diversion. She took all the newspapers and attended almost all the bargain sales they advertised. It made no difference what the articles were, how completely foreign to any use she could have for them, if they were marked down sufficiently, she purchased them.

If she saw a bargain sale of men's shirts "marked down \$1.50 to 50 cents for this day only," neither snow nor rain, thunder nor lightning, nor even Boston slush, could keep her from going in town and buying half a dozen.

If it was advertised that only a limited number of some article would be sold to each customer, she would often purchase the full amount and then go back to the shop later in the day and try to get another lot.

The storerooms in the house and all the chests and drawers and cupboards were so crammed with her gleanings that in the last few years of her life her treasures had spilled over into the open and almost every room was littered with bundles of all shapes and sizes.

Now, of course, on this evidence, it wouldn't take an expert alienist to suspect that the old person was decidedly crazy.

And yet—of course, you've seen it coming—there are mighty few women who don't have at least a touch of that mania.

The old lady thought that anything that was marked down was a bargain. So do the majority of women.

It's only the exceptional woman who ALWAYS remembers that an article marked to one-tenth its value is still expensive unless it just fills a niche of need.

It is only the exceptional woman who NEVER buys a thing because "it was such a bargain."

Buying in the off-season sales is almost the only way the woman of moderate means can keep up with the times.

But to make such buying wise one must have one's wardrobe for the next season well planned out, and so know just what one wants.

Otherwise, the attempt at economy is apt to end in the foolish extravagance of getting some sartorial white elephant on one's hands.

I do not think women of moderate means can realize too fully the value of taking advantage of off-season sales.

At the same time they can hardly stop their ears too carefully against the lure of a bargain that's only a bargain because it's marked down to half price and not because it is anything they really want.

Next time you go bargain hunting suppose you remember the old lady and be warned.

The Katherine Kip Editorial

THE CHILDREN'S BOOKS.

There is just as much danger of children learning bad manners and slovenly talk from the books they read as there is from the children with whom they are thrown in contact. The first aim and ambition of everyone responsible for the welfare of children should be to provide them with good books.

With West books and the "dime novel" are not the only books that may spoil a child's taste of life. There is a type of book which leaves a false impression of the actuality of life, that is as untruthful as the other kinds are improper. This is the book that is built upon the assumption that morality consists in being extremely good and that the rewards of life go to those extremely good persons while the bad boy and girl of the story are always punished.

The book that leaves a wrong impression as to social standing, conditions or surroundings is as untruthful as it can be. Both these and personages drawn out of proportion give the young reader distorted ideas and leave him with vague ideas of facts and the true position of the individual in society.

Then there is the story that is built up of impossible and improbable adventures which feeds only the excitability of the child while it weakens the imagination, and points to no moral or definite conclusion. It is written in slangy English, and to be funny, in construction of plot, so that the child is having its ideas destroyed in many directions. And all this is a pity when there are so many good books—books that the intellect while feeding the imagination while feeding the intellect with the idea of promoting the young reader only the desire for the best in literature gradually leading him on to the great, wonderful field cultivated by the world's best.

and trust benefactors.

Butter one good book than a half dozen poor ones. Better buy only one book a year and have that good than to buy twenty poor ones. One good book carefully read, and perhaps, re-read means a great deal more than a half dozen slightly perused.

The boy or girl who has little opportunity to leave home gets many of his or her ideas of life from what is read and it is easy to see how great is the danger if care is not taken in providing good reading matter. Plastic minds take impressions that are not easily erased and a false idea gained today may take years to eradicate, if it ever is eradicated. Almost anyone can trace some definite idea back to a book read in childhood or youth and all of the teachings and experiences of later years have not erased or obscured it. And we know, if no one else does, that it had an influence on our lives.

Help the boys and girls to get the best out of their reading. That is part of our duty as parent or guardian.

The Moabite Stone.

The "Real Moabite Stone" is a black basaltic block, unearthed at Dibon in 1868, by Rev. P. A. Klein, 3.8 feet by 1.2 feet in dimensions, which contains 34 lines in the Phoenician language. These chronicle the result of Mesha King of Moab, from Ahab King of Israel. At least two replicas of this valuable stone have been made, but the original is still in the Louvre in Paris.

Mixed Metaphors.

The famous commingling of metaphors beginning, "I smell a rat; I shall slip him in the bud," has been surpassed. According to Punch a Yorkshire paper writes: "We hope Mr. Atkinson will keep his word and with the ability he has always shown to bear to shreds and tatters the subterranean methods of the clique which at present rides the high horse."

Read every "at tonight" just to get acquainted with the merchandise.

Fads and Fashions

New York, March 25.—New models continue to arrive from Paris and the big fashion shops, which began to display their spring and summer goods several weeks ago, are constantly adding the latest importations to their fascinating displays. Among the attractive new things shown are some very short waisted frocks with quaint little jackets, which one hesitates to call blouses or boleros because of the abbreviated peplum frills that appear below their Empire waist finish. These effects are worked out in both plain and figured silks, and some of the most picturesque combine a one-tone silk with a figured material.

Particularly interesting are the little frocks of silk which are displayed in a great variety of models. One of these, worn in one of the fashionable shops, was in a checked silk of a reddish mulberry tone, white and black, with a coat of black silk, whose large revers and turnback cuffs were of the check. There was not a touch of elaboration. The straight skirt, modestly narrow at the bottom and finished with three deep, overlapping folds, was fully slightly at the high waist line, the fullness being laid in little plaits around the sides and back. The tiny black coat was held in at the waistline by a shirred cord and the thinnest of frills fell below, running up to nothing at the middle front. A chemise of net showed between the revers.

Not quite so picturesque and quaint in material and coloring was another charming model, suitable for greater number of wearers, provided they are of the slender type. For stout women these little frocks are quite out of the question, but fashion, at least at the present time gives little if any consideration to women of ample curves. In this second model the little cut and skirt are of one material, a simple summer silk, showing a very narrow black stripe on a white ground, and the only relief is in the little revers and wash of black satin. A stunning collar of real Irish, beginning just in front of the shoulders, falling in a deep, rounded cape in the back and giving a note of elegance to the frock. The softly folded narrow girdle of black is tied in a square knot at the back and below falls in two large loops, one above the other, rather than in the usual sash ends.

One of the things noticeable in the present spring displays is the fullness which has crept into some of the most attractive of the new models. The narrowest and straightest of truly smart tailored frocks is not so exaggerated as it has been and in many of the less severe costumes the skirts, though straight of line, are let into the waistline with slight shirring or little plaits and are not gathered into any kind toward the bottom. The short, large waist makes this arrangement admirable, the fullness providing approximately straight lines from girdle to hips and allowing for the hip curve. So much the new skirts go even further in the matter of fullness and are finished at the bottom by deep plaited flounces. The early Victorian period has supplied many hints for the frocks of the present fashion.

Openwork embroidery on sheer linen muslin is used even in combination with delicate silks for evening wear, and veiled with chiffon serves as foundation for pretty and serviceable afternoon frocks, while in the realm of lingerie frocks it is enormously important. There are coat and frock models of white linen so elaborately embroidered in open work design that the plain linen has an unimportant role in the matter of the skirt and girdle, suggesting a very elegant and refined line is one of the new things, and hosiery effects in this material have

hundreds of wide and narrow open work or drawn work bands, giving a bold lattice effect.

Not for many years have so many turndown collars been shown in one season as are now on exhibition in the shops. One still finds the high stock, the high turndown collar of plain or embroidered linen, the soft outing collar with its jeweled safety pin or links, but all these old favorites are fairly submerged in the flood of low turndown collars, silk or soft. One can buy the round, comparatively more expensive collar of recent seasons cheap and plain or extravagantly expensive and exquisitely embroidered, but a majority of the new collars open lower in the front than the Dutch collar and are on the whole more generally becoming, though they do make a very long thin face look still longer and thinner. The square sailor back which came into favor late last summer and has been in evidence among the winter coats is out in force among the adjustable embroidered collars and shows innumerable modifications. The wide, right angle cornered back may be combined with a front which turns in a straight line from a little below the base of the throat to the shoulder points, and from there falls in the wide sailor back. Or, the collar may be quite low in front and slope to the shoulders in true buddy fashion, or it may have wide downward sloping points in front, quite covering the chest and then follow a line upward just in front of the arm to join the sailor back.

The old patterns but new textures are being exploited in broadens for spring. They are so simple that they form exquisite elegance in wraps and gowns. The colors are lovely and even an iridescent effect is given to many. These materials are used for trimming dresses of transparent goods such as a hand around the skirt, an edging for corsage and sleeves, washes of the soft fabric and even slippers of broadens.

Items covered with broadens are excellent for early spring before you decide on a straw shape. They are light weight, can be of any shape desired and the shape can be decided before the frame is covered. One commendable feature of broadens is that the design can be used as a background for handwork. "The flower forms can be outlined or worked in solid bands; the touch of gold or silver thread can be added in outline-stitch here and there.

Broadened fabrics are in great favor this season as the shops show a great variety of them. Not only are there attractive effects, but plain silks with striking borders, bands in exquisite Persian designs, and motif flowered effects that are decidedly new. These silks come exceptionally wide, so that the question of the skirt is practically solved. For very tall women the yoke effect now comes to the rescue.

Edden who purchased the second car owned in the city was elected as the first president and has served continuously since then. He is now a director of the state automobile association and interesting in the national organization promoting good roads throughout the country.

TENNIS.

Sunburned arms, faces, necks and shoulders at the close of last summer testified to the interest of a number of the members of the Y. M. C. A. Tennis Club in that line of sport. In tennis the thermometer is not a bad weather, with some devotees of the game could be found on the courts either in the morning, at noon-tide, or at the close of day bounding the balls back and forth across the nets. A number of the players became quite expert in the use of their rackets and several contests were arranged with the tennis club at Edgerton, an organization of the business men of that city who were exceedingly proficient in the art, having had indoor practice through the winter in a court fixed up by one of the Tobacco city enthusiasts. H. S. Lovejoy was president of the local organization and the club enjoyed a most successful season.

The Frank Dudley Stock company will venture yet to consider definite plans for the coming summer but within the course of a few weeks a meeting will be called, it is expected, to get the members and talk over matters. Work on the courts and rolling them and fitting them up for the first early matches will commence within a month or two, providing there is an early spring.

One of the principal matters is regarding the location of the courts. There are two on the lots used for that purpose at the corner of West Milwaukee and Locust streets and as they are now arranged, the afternoon sun shines in the eyes of the players, dazzling their eyes when they are playing and marring their accuracy. A change,

ed to the winning team.

BASKETBALL.

Basketball has about run its course for the season in this city. Spring is approaching and with warmer days, the players find the game rather hard work and the outside world offers too many other attractions for the crowd.

The interest of the real "fans" never lags, however, until the last game is over and even then some sigh for a continuance.

The high school basketball five has completed its schedule of games and has played several other matches, securing entrance into the state tournament at Appleton as representative of the southern district of Wisconsin through victories over "There" they will meet the best teams in the commonwealth and will be given full opportunity to demonstrate their quality.

Last year's five was thought to be as strong a squad as ever played under the school name and several of the young men who made up the strength of the squad were lost through graduation. With almost an entirely new lineup this year, the team has shown its worth and has a record it can be proud of. The one wish of the friends of the school now is that the quintet will be ranked with the winners in the state tourney.

Lakota Cardinals. Tought the Lakota Cardinals basketball team will take part in next to the final contest of their season in this city, although they may play a limited number of games outside the city. Company I' team of Portage, one of the strongest clubs of its kind in the state, if not the strongest will likely be their opponent in one match which will take place in Portage. The "soldier boys" five is composed of players from other cities in the state as well as Portage, and should the Lakotas meet the soldier boys the strength of the locals will be recruited by one or two outside men. Adams, who acted as referee for the game with the University of Wisconsin, and who played center with the Varsity squad will probably be chosen.

The opponents of the Cardinals this evening are one of the best-playing basketball organizations of the Windy City and Chicago ranks high in the way of furnishing a number of the best players in this section and the whole country as well. The Ravenswood athletes took part in the Tribune free-for-all tournament, and among the victories they won, was a battle with the Lane Technical high school squad, which lost to the Cardinals here.

GOLFERS PLANNING FOR BUSY SEASON

Possible Employment of Professional Increases Interest in the Game.

While all plans for the coming season at the Shubert Golf club have not been completed, the action of the board of directors in reappointing as head of the various committees the same gentlemen as last year, will aid materially in having things started right. The naming of the chairman of the House committee has been left to some later meeting, but as the club this year has donated two hundred dollars for the summer, each Tuesday evening making them free to all members, considerable of the work of this house committee has been done away with.

The membership is increasing, the list this year showing many active members who will devote considerable time to the game and with the prospect of having the services of a professional to add them in the preliminary work many more members will play this year than formerly. Secretary Gage has taken this matter up with the New York firm that furnishes professionals to clubs and it is expected that terms will be reached before the spring playing actually begins.

ALUMNI DEFEATED BY HIGH SCHOOL

Youngsters Prove Superiority Over Old Players in Game Full of Thrills Last Evening.

With the result of the game in doubt up to the last minute of play, the high school basketball team won from their alumni last evening by a score of 22 to 31 in one of the most exciting games of the season. In the first half it was a case of runaway for the youngsters, and this section of the game ended with the score 22 to 9 in their favor.

In the second half it was different and the Alumni came back in a way that fairly carried the high school team off their feet. This second half was sensational in the extreme and Murphy, the last year's captain, with four field goals to his credit, caused plenty of trouble for the regulars. The finish was particularly nerve-racking, the score standing 21 to 30. Then, coming in the high school captain, saved the day in the last thirty seconds of the game with a field goal, bringing the score up to 22 to 31.

Following are the details of the game: Alumni: Cunningham, rf; Koch, lf; Wilkinson, c; McDonald, rf; Murphy, lf. High school: Fatter and Brown, rf; Korst, lf; Hemming, c; Brown and Fatter, rf; Edler, lf. Field goals: J. H. S.: Hemming (5), Korst (3), Brown (3), Edler (1). Alumni: Koch (1), Murphy (1), Wilkinson (3), Cunningham (1), McDonald (1). Free throws: Korst (8), Koch (1), Murphy (1), Cunningham (2), Wilkinson (1). Referee: Knudson.

Rambler MOTOR CARS

Forty-inch Wheels

Have you seen that long, lithe, graceful, forty-five horsepower Rambler with the forty-inch wheels? It will be found in the hands of owners who appreciate comfort and quality without extravagance. It is the only car of Rambler quality selling in America under \$4,000, equipped with forty-inch wheels. You surely want forty-inch wheels on a seven-passenger car—they will all have them next year. Come to our salesroom; step into this car; note the position of the adjustable steering pillar and study its many points of comfort, safety and convenience. In it you will feel that pleasing sense of exclusiveness. The public turns to look when this car goes by. The Spare Wheel relieves you of worry about tire trouble. The brakes are large enough to insure a feeling of security. The upholstery is that of the finest club furniture and the trimmings are of nickel.

Telephone at any time and we will bring a Rambler to your door for your inspection, or write for the Rambler Magazine.

Janesville, Wisconsin.

OUTDOOR SPORTS BEGIN TO CROWD GAMES OF WINTER

SPRING SEASON IS NOW ABOUT READY TO OPEN.

THE HANDBALL SEASON

Is Drawing To A Close. While Baseball Is Just Starting Up and First Practice of Season Will Be Held Sunday.

Handball as an indoor sport has furnished exercise for a number of the business and professional men of the city throughout the entire winter. A number of them, who find tennis and other games a fitting relaxation from their daily labors at the desk or with the law books, seek this method of mental recuperation and physical up-buill. The handball courts of the Young Men's Christian association are the most convenient gathering place and the only place in the city where provision is made for playing the game and there, after office hours are over, the tollers meet for the athletic features and social intercourse which is afforded.

Some of the younger members of the association have also entered into the game with spirit and enthusiasm and a league of four teams was formed at the commencement of the season with a regular schedule of contests. These are about completed, but the interest has not flagged in the least.

Among the older players no such arrangement has been made, but they play with as much zest as though some such honor were attached to the matches.

The intermediates, who form the league, have been divided into four two-man teams, calling themselves, the Cubs, Maroons, Cardinals and Crescents. The Cubs are W. Hemming and Robert Cunningham; the Maroons, Green and V. Koch; Crescents, Brown and E. Hagen; and Cardinals, Kuhlman and Soullman.

The Cubs now have the lead with the Cardinals in second place, but the other teams are fighting for position and the struggle promises to be interesting before the close of the short time hence.

BASEBALL. Plans for the proposed inter-city baseball league of Southern Wisconsin will come to a head on Tuesday of next week, according to the announcement today of Walter Dreen, a local player, who is engineering the project. The outcome is in doubt yet and it is possible an organization may not be effected.

Outlets teams seem to be anxious to get into a league if one is formed, but there is considerable quibbling over the arrangements to be made. The principal and practically the whole difference lies in the question as to what shall be done with regard to Sunday games. Each manager wants a game each Sunday in his home park.

Such an arrangement is impossible and the problem is to arrange matters in a manner satisfactory to all. In case the league is not formed, Manager Dreen has stated that he will put a strong independent team in the field and promise some good five-day sport for the local fans. A practice will be held at the Fair Grounds on Sunday in which some of the best home talent will participate, trying for positions on the team.

Commercial League. There are prospects for "something doing" in the Commercial League in the course of a week or so. Arrangements, however, have been held up for a short time owing to the absence from the city of some of the men who are interested in the project.

There is no question as to the certainty of a league being formed this season as proved by the success of last summer. There is a possibility also that two more teams, making seven in all, the Janesville Machine company and the Rock River Cotton company will ask admittance and put strong nines in the field. The league holds a three year lease of Athletic Park from the owner, Charles Conrad, and this will be utilized for games every Saturday when weather favors and on many holidays as matches can be conveniently arranged.

According to present plans, it is officially declared, the season will open the first Saturday in May, providing the managers of the various factories concerned are willing to commence the Summer half-holidays then.

SELECTED FOR OLYMPIC GAMES—JESSE E. APPLEBY.

Brooklyn, Mass.—Jesse E. Appleby, the polio-athlete of this city, has been selected by John E. Sullivan, former president of the A. A. P., now president of the Olympic committee, to represent America in the coming big Olympic games. Appleby is 27 years old, is the youngest member of the Brooklyn police force and is one of the best known athletes in the shoe city. Sullivan had relied upon Dennis J. Mahoney, who holds the shot putting and hammer throwing championships in Scotland and Ireland, but Mahoney is now coaching the University of California weight throwers and will be unable to compete as men in the hammer throwing and six men in the discus and has but four now, Appleby being one. The trials will be held in New York in August and Appleby has been assured he will get a place on the team that goes abroad. In a field meet here last year Appleby threw the discus 132 feet, 10 1/2 inches. Appleby promises to develop into a great athlete.

replaced and the wise ones discuss the merits of engines, and other component parts of the machine. So the more outsider who chances in on such a conversation gropes about in a world of darkness while the learned babble on of carburetors, valves, "first and second" and other terms that smell of gasoline.

Automobiles owned by Janesville people at the present time number about two hundred, according to one local dealer, and in Janesville and the nearby vicinity there are between two hundred and twenty-five and two hundred and fifty. Predictions are for a good season for the suburban, although it is a little early to judge yet. Between forty and fifty citizens of the city, it is said, will join the ranks of the motorists in 1911. In support of this statement, the declaration is made that one firm has sold within the past two weeks an average of nearly a car a day.

The Janesville Automobile club, of which Dr. R. W. Edden is president, is doing much to promote the interest in the sport and overcome popular prejudice against the owners. The club is working for the welfare of the general public and striving to secure more strict observance of the laws with regard to speeding. The club contends that it can control those included in its membership but that others are guilty of the infractions of the statutes.

About eighty auto owners of Janesville are now included on the membership roll of the club. It was started about ten years ago with a small membership and its increase has been steady though not phenomenal, the number is now about eighty. Dr.

however, will undoubtedly be made to remedy this defect.

BOWLING.

Indoor sports are nearing the last days and the games which furnished amusement and relaxation for busy men during the winter are in danger of falling out of favor until the time approaches when they will again regain supremacy, when the weather becomes too cold for the enjoyment of some of the lines of outdoor athletics.

Among the athletes in bowling, which finds favor with quite a number in this city. For several years past a bowling league has existed, including in its enrollment some of the best bowlers in the city.

Six teams comprised the league this year and excitement has run high over the contests. The names chosen to designate each set of players were quite original: Butternuts, Cocoanuts, Hazelnuts, Walnuts, Doughnuts and Chestnuts and the organization has been dubbed the "Nitty League."

The Butternuts quintet has taken the lead over the other fives and will hold it to the end, having won a sufficient number of games to ensure first place for them. The race for second and third place is close, however, and there is promise of several hard fights before the question of which shall follow in order the Butternuts is determined. The last games will be rolled at the Hockett alleys on Thursday evening of next week.

As a fitting close to the season a banquet will be held on April 6 which all bowlers who took part in the matches will attend. Plans for the least were made at a meeting of the league on Thursday night and it is an event long looked forward to. It is probable that a prize will be awarded
